

Protect Your Footprint & Your Future

Digital Video Surveillance

Market Overview

Who Needs Protection?

- Top-end: Casino, Government, Campus, Banks, Airport
- Mid-range: Office, Health Care, Warehouse, Condo, Hotel
- Low-end: Small Business, Residential
- Consumer-end: Door cam, Nanny cam, gate cam

Advantages of Digital Surveillance:

- Scalable for companies with existing IP network infrastructure, especially for PTZ (Pan-Tilt-Zoom), where it can be securely controlled anywhere such as PC or handheld devices.
- Cost savings as data can be recorded in a DVR system that can store at least 2 months worth of activities.
- Infra-red capabilities that detects motion and automatically adjusts lighting.
- Audio recording support
- Tamper and weather-proof materials

Typical Installations:

Note: Success of surveillance installations are based on risk assessment and facility's vulnerabilities.
